April 18, 2014

Dear Editor,

Title: The study on acute pancreatitis in the recent stage

Author: Ye-Chen Feng, Min Wang, Feng Zhu, Ren-Yi Qin

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO:9842

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) In Pathogenesis part, the role of NF-kB signal pathway is recommended to be mentioned because it is an important factor related to AP.

(2) In Diagnoses section, the author said there are four types of AP, but the standard classification of AP are still three subtypes, as published in GUT 2013. The four type AP has not been worldwide accepted yet.

(3) It is better to contain one or two tables in the text, instead of "." before the sentence, as in the "The pancreatic alarm signs" paragraph.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,
