COMMENTS TO AUTHORS

A review article Endoscopic ultrasound-guided interventions in special situations by Varayu Prachayakul is a good overview of the use of EUS interventions in some special clinical situations. Author should elaborate a bit more in details the published literature in children and describe also some complications of the method. Despite that it is a manuscript that deserves to be published in World Journal of Gastrointestinal Endoscopy

COMMENTS TO AUTHORS

Good overview on EUS-guided procedures. It would be more interesting to readers if authors provided more details on each procedure, and the pros and cons of various techniques.
