Recurrent Hemoptysis and a Mass in the Thorax in an Infant ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4335950>

Sep 13, 2013 · Case Report. An 11-month-old female infant was admitted to our hospital with a complaint of hemoptysis, hematemesis, and hematochezia. The baby was born weighing 3,100 g after an unremarkable pregnancy. The history of cough, cyanosis, or vomiting started since she was 10 days of age and these complaints were unrelated with feeding.
