## COMMENTS TO AUTHORS

The authors have reviewed good studies for “ The role of long non-coding RNAs in the metastasis of gastric cancer” and have submitted a well-written manuscript. I have just minor comments; 1. The authors should briefly describe the general information of the long non-coding RNAs in the “Introduction” section. 2. The authors need to focus on the function of lncRNAs in the metastasis of gastric cancer in the “Conclusion” section. 3. Please inset the volume and page number of the reference 58.
