Attention-deficit/hyperactivity disorder and suicide: A systematic review

Judit Balazs, Agnes Kereszteny

Abstract

Aims: To investigate suicidality and attention-deficit/hyperactivity disorder, this paper aims to systematically review the literature as an extension of previous reviews.

Methods: We searched five databases (Ovid MEDLINE, Psycinfo, PubMed, Scopus, Web of Science) with two categories of search terms (1. suicide; suicidal; suicide behavior; suicide attempt; suicidal thought; and 2. ADHD; attention-deficit/hyperactivity disorder). **Results:** The search resulted 26 articles. There is
