SPECIFIC COMMENTS TO AUTHORS

This is a case report of eosinophilic gastroenteritis with hemorrhagic ascites. This case is very rare, however, I have several comments as follows, 1. Authors mention colonoscopic findings of the rectum. Please mention colonoscopic findings of the proximal colon and the ileum. 2. Authors mention mild eosinophilic infiltration into

the duodenal mucosa. Eosinophilic infiltration is defined as more than 20 count in HPF. Please mention the number of eosinophilic infiltration in HPF. 3. Were biopsy specimens taken in the esophagus, stomach, ileum or colon? 4. Authors mention that the patient was negative for *Helicobacter pylori*. Please mention the method for *Helicobacter pylori*. 5. Please shorten Discussion section, especially about differential diagnosis. 6. Please diminish the references. 7. Please explain the arrows in Figure 1. 8. The histological image in Figure 3 can not show eosinophilic infiltration in the duodenum. Please change the histological images which show remarkable eosinophilic infiltration.
