### COMMENTS TO AUTHORS

Your manuscript is quite comprehensive and potentially important. However, following questions and suggestions need to be addressed by you: 1. Were the figures and table drawn by you? Otherwise, reference should be added. 2. Figure explanations should be under the figure. 3. What is the meaning of the abbreviation of "NCEP ATPIII" in the introduction section? This meaning should be added. 4. There are many spelling mistakes. For exp. "associated tothe so-called", "in fatty infiltration,to non-alcoholic steatohepatitis (NASH) withfatty infiltration", "same patientssimultaneously ", "importingserum" "storingand", "pathophysiologyhas" "liverappears to be more vulnerable tothe ".....Should be reconsidered.

### COMMENTS TO AUTHORS

Excellent comprehensive review and summary of the link between psoriasis and NAFLD and various components of metabolic syndrome. Authors have highlighted various important practical points especially with respect to therapies targeted at both psoriasis and NAFLD/metabolic syndrome. Various spelling mistakes are prevalent in the manuscript - please correct them.
