Mexico City, Mexico, June 13, 2017

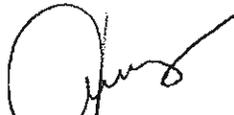

Ruling: C 1-01/13-06-2017

The institutional Investigation Committee of the Superior School of Medicine, National Polytechnic Institute, composed by Drs. Eduardo Meaney-Mendiolea, Norma Estela Herrera-González, Liliana Anguiano-Robledo, Ramón Mauricio Coral-Vázquez, Paula del Carmen Figueroa-Arredondo, and Juan Manuel Vélez-Reséndiz, at its meeting held on June 13, 2017, declares to have evaluated the project number ESM-C1-01/13-06-17, whose protocol is named *Hepatic morphologic and biochemical effects of weekend alcohol consumption*, proposed by Dr. José Antonio Morales-González.

For its evaluation this Investigation Committee reviewed the following features: Title, scientific background, postulation of the problem, objectives, hypothesis, work organigram, congruence, originality, transparence, ethical aspects, type of research, and subsidiaries aspects. After analyzing all these items, the following rule was issued.

ACCEPTED

- 1.- No. ESM-C1-01/13-06-2017. Version 1.0, dated June, 2017
- 2.- Adjunct observations

Sincerely

Eduardo Meaney-Mendiolea, MD, PhD
