Manuscript NO: 60809

Reviewer #1:

Scientific Quality: Grade C (Good)

Language Quality: Grade B (Minor language polishing)

Conclusion: Minor revision

Specific Comments to Authors: To the authors: This is a good review by Shao et al. addressing the crosstalk between microbiome and bile acids in liver diseases. I would only suggest to read the manuscript again and check for grammar errors. For example in the introduction section, the second line reads "Liver is a critical immune organ", and it should say, -The- liver is a .... Otherwise I believe it is a good manuscript.

**Answer:** Thank you much for your valuable comment. I have read the comments of reviewers carefully. I am very sorry for that the quality of the English language of the manuscript does not meet the requirements of the journal. I have found a professional English language editing company called Medjaden to polish the article. The English Language Certificate issued have been uploaded to the F6Publishing system. If there are still grammatical problems, I will switch to a more professional English language editing company.
