COMMENTS TO AUTHORS

A very interesting manuscript about INTESTINAL OBSTRUCTION DUE TO BEZOARS. However the manuscript should be revised and corrected by a native speaker of english.

COMMENTS TO AUTHORS

The authors report an interesting study with a high therapeutic impact. The authors must correct this section: Core Tip : Intestinal obstructions present % 20 of all emergency surgical procedures. Bezoars form the least common etiology for intestinal obstructions. Nevertheless, the most common complication of bezoars are intestinal obstruction. The aim of this paper is to evaluate the intestinal obstruction cases caused by bezoars and discuss treatment options for this situation.
