Detection methods and clinical significance of free peritoneal  
tumor cells found during colorectal cancer surgery

Simone Sibio, Cristina Fiorani, Carmine Stolfi, Andrea Divizia,  
Roberto Pezzuto, Fabrizio Montagnese, Giulia Bagaglini, Paolo  
Sammartino, Giuseppe S Sica

**Abstract**

Peritoneal washing is now part of the standard clinical practice in  
several abdominal and pelvic neoplasias. However, in colorectal  
cancer surgery, intra-peritoneal free cancer cells (IFCC) presence is  
not routinely investigated and their prognostic meaning is still
