### SPECIFIC COMMENTS TO AUTHORS

This is an interesting case report of a child with a liver mass in the 5th segment treated by the Da Vinci surgical system. Overall, this case is well written. Comments: 1 In the abstract, the background should be re-write. It seems copied from the introduction section.

2 Some minor language polishing in the main text should be corrected. 3 In the case presentation section, "Chief complaints, History of present illness, History of past illness, Physical examination, Laboratory examinations, Imaging examination, Further diagnostic work-up, Microbiological identification of the causative agent" should be deleted. 4 What's the meaning of "MULTIDISCIPLINARY EXPERT CONSULTATION"? Only a department was listed. It's meaningless. Please delete it. 5 The figures should be moved to the end of the text. 6 Discussion is good.

### SPECIFIC COMMENTS TO AUTHORS

Very interesting case about robot-assisted gallbladder-preserving hepatectomy for treating S5 hepatoblastoma in children. The literature was well reviewed. Only the main text and the abstract should be improved by an English speaker. Some minor language
