Data sharing statement, World Journal of Gastroenterology

Within this statement, I confirm that no additional data are available within the manuscript “Near-infrared fluorescence sentinel lymph node detection in gastric cancer: a pilot study” by Tummers and Boogerd et al.

Sincerely,

Alexander L. Vahrmeijer, M.D., Ph.D., (corresponding author),

A handwritten signature in purple ink, which appears to read 'A. Vahrmeijer', is written over a horizontal line.
