COVID-19 in gastroenterology and hepatology: Lessons learned and questions to be answered

Liu S *et al.* COVID-19 in gastroenterology and hepatology

Shao Liu, Mi-Mi Tang, Jie Du, Zhi-Cheng Gong, Shu-Sen Sun

Abstract

BACKGROUND

Although coronavirus disease-2019 (COVID-19) presents primarily as a lower respiratory tract infection, increasing data suggest multiorgan, including gastrointestinal (GI) tract and liver damage, involvement in patients that are infected by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2).
