

Treviso 30/04/2019

Dear Editor,

We appreciated the comments of the reviewers.

Listed below are the changes introduced in the manuscript according to the editor's suggestions and reviewers' comments.

Editor's suggestions:

- 1) ***Title should be less than 12 words:*** we revised the manuscript title.
- 2) ***Please offer the audio core tip:*** we provided the audio core tip.
- 3) ***The reference numbers should be superscripted in square brackets at the end of the sentence:*** we revised all the reference numbers.
- 4) ***Article Highlights:*** We provided the Article Highlights according to the BPG Guidelines.
- 5) ***Please provide the decomposable figure, whose separate parts are movable and words can be edited.*** We provided a decomposable Fig1, prepared with Word processing Software, embedded in the manuscript, and also on separate electronic image files (Word and TIFF).
- 6) ***Please add PubMed citation numbers and DOI citation to the reference list and list all authors.*** We structured the references according to BPG guidelines, listing all authors and adding PubMed citation numbers and DOI citation to the reference list as appropriate. We highlighted with yellow color the reference 6 as those Conference Proceedings are not indexed by PMID or DOI. We provided BPG with a printed copy of the first page of the full article on the Supplementary Material.

Reviewer 1 (Review Date: 2019-03-18 15:45):

- ***Background: more descriptions on kinds of FDCs and MTRs and differences between the two categories would be very helpful to the broad readers:*** we provided more descriptions adding three sentences in the introduction, as highlighted in the manuscript.
- ***Minor edits: Key words - HAAR (missing "T"):*** correction made.
- ***Page 11, the last sentence of the 1st paragraph was confusing:*** We have slightly modified the text of two sentences on the last page, as highlighted in the manuscript, to make them clearer.

Best regards,

Dr. Walter O Inojosa on behalf of all the authors.
