

In lieu of a “Non-Native Speakers of English Editing Certificate”

Dear Editors,

All authors of this invited manuscript have been working in the United Kingdom and undertake professional medical commitments at high level. Some authors are native English speakers. All authors have checked and approved the final version and guarantee the Grade A quality of English throughout this manuscript. As such, I am sure a “Non-Native Speakers of English Editing Certificate” is not required for this submission.

Many thanks for your kind consideration.

On behalf of the authors

Mr Vasileios K. Mavroeidis
