COMMENTS TO AUTHORS

I found the topic useful and interesting for especially interventional radiologists. 1--I'd like the authors to give some more technical detail, especially --drug names, amount, percentage of steroid/LA --Guidance: CT,fluoroscopy,US? --Explanation of fluoroscopy approach with a figure showing needle trajectory 2--Do the authors also perform disc injection (if yes, again amount of drugs) 3--I'd like the authors also to add some recent data about ozon injection
