

## **Biostatistics statement**

August 15, 2017

Name of Journal: World Journal of Gastroenterology

ESPS Manuscript NO: 35213

Manuscript Type: ORIGINAL ARTICLE

Title: Resveratrol modifies biliary secretion of cholephilic compounds in sham-operated and cholestatic rats

Authors: Eva Dolezelova, Alena Prasnicka, Jolana Cermanova, Alejandro Carazo, Lucie Hyrsova, Milos Hroch, Jaroslav Mokry, Michaela Adamcova, Alena Mrkvicova, Petr Pavek, Stanislav Micuda

Correspondence to: Stanislav Micuda, MD, PhD, Professor, Department of Pharmacology, Charles University, Faculty of Medicine in Hradec Kralove, Simkova 870, 500 38, Czech Republic, [micuda@lfhk.cuni.cz](mailto:micuda@lfhk.cuni.cz); Telephone: +420-495 816 233

Values from individual measurements were archived and prepared in MS Excel. Statistical analysis of data and graphical design of Figures were performed in GraphPad Prism 6.0 software under supervision of Prof. Micuda using standard statistical methods for this kind of experiments as specified in Methods.

Thank you.

Yours faithfully,

Prof. Stanislav Micuda, MD, PhD
