

INFORMED CONSENT STATEMENT

Name of Journal: World Journal of Orthopedics

Manuscript NO: 41439

Manuscript Type: Observational Study

Validation of the Danish version of the Musculoskeletal Tumour Society Score questionnaire.

Casper Kloster Pingel Saebye, Johnny Keller, Thomas Baad-Hansen

Informed consent statement: All patients gave their verbally informed consent for participating in the study, however signed consent was not required according to Danish guidelines, since the study was based on questionnaires.

Sincerely

Casper Kloster Pingel Saebye
