**Title: Molecular evaluation of glutathione s transferase family genes in patients with sporadic colorectal cancer**

Rodrigues-Fleming GH *et al.* Glutathione s transferase family genes in colorectal cancer

Gabriela Helena Rodrigues-Fleming, Glaucia Maria de Mendonça Fernandes, Anelise Russo, <sup>1</sup> Patrícia Matos Biselli-Chicote, João Gomes Netinho, Érika Cristina Pavarino, Eny Maria Goloni-Bertollo

## ABSTRACT

### AIM

To evaluate the association of sociodemographic factors, *GSTP1* Ile105Val polymorphism, and *GSTT1* and *GSTM1* null genotypes with development of sporadic colorectal cancer (SCRC); to investigate the interaction among these

Molecular evaluation of glutathione s transferase family genes in patients
