10 **Abstract**  
25  
11 Patients with hepatocellular carcinoma (HCC) accompanying portal vein tumor  
12 thrombosis (PVTT) have relatively few therapeutic options and an extremely poor  
13 prognosis. These patients are classified into Barcelona Clinic Liver Cancer (BCLC)  
14 stage C and sorafenib is suggested as the standard therapy of care. However, overall  
15 survival (OS) gain from sorafenib is unsatisfactory and better treatment modalities
