**COMMENTS TO AUTHORS**

1. Abstract: Methods. Suggest change record to records. 2. Abstract: Methods. Suggest changes started to started. 3. Abstract: Conclusion. Seems overstated based on findings from this retrospective uncontrolled study. Suggest change to, "In LT patients, the choice of immunosuppression appears to impact renal function and patient survival" 4. Core Tip. Suggest similar response as in #3 above as the findings are overstated. 5. Introduction paragraph 2. Uses however twice in one sentence, suggest replace the second time with "but such an effect..." 6. Introduction Morard reference. It should read, greater than or equal to, instead of less than, for all the drug / level relationships. 7. Adjustment of CNI does during follow-up section. Replace through with trough in sentence 3. 8. Add percentages to tables.
