

Chief Editor  
World Journal of Gastroenterology

20 December 2023

Dear Editor,

We appreciate you very much for the constructive comments and suggestions. In terms of the comments, we have extensively revised the manuscript entitled “Amlodipine inhibits the proliferation and migration of esophageal carcinoma cells through the induction of endoplasmic reticulum stress” (manuscript ID: 90678). All updated parts have been highlighted in the revised manuscript in yellow. The detailed responses to the comments are to be found below.

### **Comments**

**1. In the intro Kindly add, worldwide incidence rates of EC and burden to make it more generalizable and relevant to all readers.**

**Reply:** We appreciate the reviewer for this suggestion and have incorporated worldwide incidence rates of esophageal cancer (EC) into the revised manuscript, addressing the issue in the first paragraph. Additionally, we have made some slight modifications and deletions to certain abbreviations.

We are thankful to all the wonderful comments and please contact me if you have any other questions.

Sincerely,

Baosheng Zhao, MD
