Long non-coding RNAs involved in metastasis of gastric cancer

Meng-Ting Lin, Hao-Jun Song, Xiao-Yun Ding

Meng-Ting Lin, Medical School of Ningbo University, Ningbo 315000,
Zhejiang Province, China

Abstract

Gastric cancer (GC) is one of the most frequent malignant diseases. The molecular mechanisms of metastasis remain unclear. Recent studies have shown that long non-coding RNAs (lncRNAs) play a potentially critical role in
