Dear Doctor Lian-Sheng Ma,

For more than 20 years I have been revising and editing for publication in the most prestigious international medical journals the articles produced by many of the departments of the two principal universities in Naples, Italy, including the department of Infectious diseases headed by Prof. Caterina Sagnelli. I was born and educated in Great Britain, have diplomas in both English and Italian and have worked consistently as a medical/scientific text reviser for the past 30 years. I have thoroughly revised the manuscript entitled “**Reactivation of HBV infection in patients with hemo-lymphoproliferative diseases, and its prevention**” (ID number 02942289), for publication in the “**World Journal of Gastroenterology**”.

I, therefore, deem that it is fit for publication and does not require any further language revision.

I remain at your disposal should you need any further information.

Yours sincerely

Elizabeth McGarry
