

**Research Proposal Ethical Approval**

Dear Dr. Hasan Mohamed Isa,

We would like to inform you that the **Research Committee for Government Hospitals** has approved your research proposal titled:

“Pediatric and adult liver transplantation in Bahrain: An experience of a country where no liver transplant facilities available”

- **Approval date: 15.11.2022**
- **Research approval serial no: 87151122**

The Research and Research Ethics Committee operates in a manner consistent with the Good Clinical Practices under the ICH guidelines, and applicable national/local regulations. Kindly note that regular progress reports should be submitted to the committee every two months, notification for any protocol amendment, closure of the study, and publication notification.

Regards and best of luck...

Rashed Albanna

Head of the research and research ethics committee
Government Hospitals
