*Basic Study*

**Phosphatase and tensin homolog is a differential diagnostic marker between nonalcoholic and alcoholic fatty liver disease**

Andrea Sanchez-Pareja, Sophie Clément, Marion Peyrou, Laurent Spahr, Francesco Negro, Laura Rubbia-Brandt, Michelangelo Foti

#### Abstract

**AIM:** To investigate the protein expression of phosphatase and tensin homolog (PTEN) in human liver biopsies of patients with alcoholic and non-alcoholic liver disease.

**METHODS:** PTEN protein expression was assessed by immunohistochemistry in
