

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 5601-revision.docx).

**Title: Chronic Hepatitis B in 2013: Great therapeutic progress, large diagnostic deficit**

**Author:** Claus Niederau

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 5601

#### **Response to the Editor and Reviewers**

The last comments only suggested to include a secondary title and a short comment of less than 100 words. Also it was asked for that the abstract should be unstructured. I have done all these small correction.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.
