 Micronutrient deficiencies in patients with chronic atrophic autoimmune
 gastritis: A review

 Cavalcoli F *et al.* Nutritional deficiency in atrophic autoimmune gastritis

Federica Cavalcoli, Alessandra Zilli, Dario Conte, Sara Massironi

Abstract

Chronic atrophic autoimmune gastritis (CAAG) is an organ-specific autoimmune disease characterized by an immune response, which is directed towards the parietal cells and intrinsic factor of the gastric body and fundus and leads to hypochlorhydria, hypergastrinemia and inadequate production of the intrinsic factor. As a result, the stomach's secretion of essential substances, such as
