### Acupuncture and regulation of gastrointestinal function

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4507100>

Jul 21, 2015 · In this review, we discuss the regulation on GI function through acupuncture from the perspectives of GI motility, the GI barrier, visceral sensitivity, and the brain-gut axis. The results of studies in both humans (Table (Table3) 3 ) and animals suggest that acupuncture has the potential to treat GI disorders by regulating GI motility, the GI barrier, visceral sensitivity, and the brain-gut axis.

### Acupuncture and regulation of gastrointestinal function.

<https://www.ncbi.nlm.nih.gov/pubmed/26217082>

Jul 21, 2015 · Acupuncture and regulation of gastrointestinal function. The dual regulatory effects of acupuncture may manifest by promoting gastric peristalsis in subjects with low initial gastric motility, and suppressing peristalsis in subjects with active initial motility. In addition, the regulation of acupuncture on gastric motility may be...

### [PDF] Acupuncture and regulation of gastrointestinal function

[www.groundedacupuncture.com/uploads/2/1/1/2/21124980/gi\\_acupuncture\\_study.pdf](http://www.groundedacupuncture.com/uploads/2/1/1/2/21124980/gi_acupuncture_study.pdf)

GI motility[2630]. Acupuncture may have regulatory effects on GI motility, especially on the motility of the stomach and colon (Table 1). Effect of acupuncture stimulation on GI motility According to TCM, one characteristic of acupuncture is that it has opposite regulatory effects during different physiological conditions. For example, acupuncture

### [PDF] Mechanism of acupuncture on GI motility (supported by ...

<https://www.clinic-toku.com/wp-content/uploads/2016/07/Mechanism-of-acupuncture.pdf>

Mechanism of acupuncture on GI motility (supported by NIH R21) Although acupuncture has been used to treat gastrointestinal symptoms in China for more than 3,000 years, mechanism of the beneficial effects of acupuncture remains unclear. According to the Traditional Chinese Medicine, the energy force (known as Qi) runs through the body.

### Effect of Siguan Acupuncture on Gastrointestinal Motility ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3670549>

Abstract Siguan acupoints have been used to treat gastrointestinal symptoms in acupuncture

## Acupuncture and regulation of gastrointestinal function

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4507100>

Jul 21, 2015 - Mechanisms by which acupuncture regulates GI motility. The pathways, transmitters, and modulators of the nervous system are important factors in the regulation of GI motility (Table (Table2). 2). In diabetic rats, EA at ST-36 has been shown to **normalize** contractions of the **gastric antrum**.

## Neural mechanism of acupuncture-modulated gastric motility

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4066003>

Feb 07, 2007 - The acupuncture stimulation with the intensity of 2-T A $\delta$  ( $3.62 \pm 0.44$  mA) at the acupoints of Li-11, St-13 and St-36 elicited a mild-moderate facilitation on the gastric **motility**, whereas the acupuncture stimulation with the same intensity to the acupoints of St-21 and Cv-6 brought about a moderate depression of gastric **motility**.
