<input type="checkbox"/> Grade D (Fair)	<input type="checkbox"/> Grade D: rejected	BPG Search:	<input type="checkbox"/> Minor revision
<input type="checkbox"/> Grade E (Poor)		<input type="checkbox"/> Existed	<input checked="" type="checkbox"/> Major revision
		<input type="checkbox"/> No records	

COMMENTS TO AUTHORS

The content of the review might be a little irrelevant to the title. MicroRNA but not chemotherapy strategy should be the key point of the manuscript. The discussion part is too simple which needs reinforcement. The microRNAs that are most likely to be novel predictive biomarkers and therapeutic targets in colorectal cancer should be discussed.
