Manuscript # 59848

Dear Author, I review the manuscript 59848 entitled "Changes in sleep parameters following biomimetic oral appliance therapy: Case report of severe obstructive sleep apnea" with Professor G. Dave Singh as corresponding author. I think it is an interesting case report but it may be improved with some important revisions. Authors should include at least one table with all the characteristics of the polysomnographies, in particular saturations, overall AHI, supin and non-supin AHI and ODI.

Thank you for sending the referees' reviews, which we found helpful and thought-provoking. We have endeavored to make all the corrections requested. Specifically, we have;

1. Used uniform presentation for all figures, which have now been numbered in order.
2. Added a Table with all polysomnography findings.
3. Provided the original figures using PowerPoint that can be reprocessed by the editor;
4. Added the PMIDs and DOIs to the reference list.
5. Re-written the "Case Presentation" section, and added "FINAL DIAGNOSIS", "TREATMENT", and "OUTCOME AND FOLLOW-UP" section to the main text.
6. Have numbered the references in Arabic numerals according to the citation order in the text in square brackets.

We believe that the revised manuscript is now suitable for publication in the World Journal of Clinical cases. However, if you require any further information, please do not hesitate to contact us.

Sincerely,
Professor G. Dave Singh DMD PhD DDSc
Dr Sam Kherani BSc DDS MBA
