

## **INSTITUTIONAL REVIEW BOARD STATEMENT – NONE**

For IRB purposes, a single case report is a retrospective analysis of one, two, or three clinical cases. A single retrospective case report is a medical/educational activity and does not meet the Federal Policy for the Protection of Human Subjects definition of "research" which is "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." Therefore the activity does not require review by the IRB.
