

PEER-REVIEW REPORT

Name of journal: World Journal of Gastroenterology

Manuscript NO: 53908

Title: Annexin Y promotion of hepatocellular carcinoma tumorigenesis via the immune microenvironment

Reviewer's code: 00032020

Position: Editorial Board

Academic degree: MD, PhD

Professional title: Professor

Reviewer's Country/Territory: Japan

Author's Country/Territory: China

Manuscript submission date: 2019-12-31

Reviewer chosen by: Le Zhang

Reviewer accepted review: 2020-02-14 23:47

Reviewer performed review: 2020-02-16 09:09

Review time: 1 Day and 9 Hours

SPECIFIC COMMENTS TO AUTHORS

Manuscript NO: 53908 Title: How does Annexin A2 promotes tumourigenesis through involvement in immune microenviroment in hepatocellular carcinoma Manuscript Type: Opinion Review Correspondence to: Professor Haijian Zhang, This is an interesting review about ANXA2 in cancer biology. To support readers' understanding of ANXA2, some modifications are necessary. The first reported paper about ANXA2 was missing. The paper should be clearly referred. In addition, the basic information about ANXA2 should be introduced in the text; coding gene, chromosome, protein size, and biological function in normal cell. In the present review, many papers were introduced that ANXA2 was closely associated with several kinds of cancers, not only HCC. However, it was not enough to support the role of ANXA2 in hepatocarcinogenesis through involvement of immune microenviroment. Title was not matched with the content. Line 16, page 4; Sorafenib has not been only systemic therapeutic agent for HCC. Now, Lenvatinib has been added the first line for systematic therapeutic agent. Author should revise the sentence. Minor; Misspelling; 'firther' in line 18, page 6. 'Nonalcoholic fatty liver disease' and 'non-alcoholic fatty liver disease' were same disease. The same words should be used. Line 22, 22, page 6. Line 5-6, page 9; Two sentence was the same meaning. One of them should be removed. The abbreviations for 'Tregs', and 'DCs were necessary in line 11, and line 12, page 10 respectively.
