Manuscript Type: SYSTEMATIC REVIEW

Glucose metabolic phenotype of pancreatic cancer

Anthony KC Chan, Jason I E Bruce, Ajith K Siriwardena

Abstract

AIM: To construct a global “metabolic phenotype” of pancreatic ductal adenocarcinoma (PDAC) reflecting tumour-related metabolic enzyme expression.

METHODS: A systematic review of the literature was performed using OvidSP and PubMed databases using keywords “pancreatic cancer” and individual glycolytic and mitochondrial oxidative phosphorylation (MOP) enzymes. Both human and animal
