

July 10, 2015

Dear Editor,

Thank you for reviewing our manuscript "The Impact of New Options for the Treatment of HCV Infection Post-Liver Transplantation".

We have submitted our revised version according to the Journal Guidelines.

We thank the reviewers for their positive feedback.

Please note that some minor changes have been added to the manuscript (highlighted in the text) since this field is constantly being updated and the results of new trials have been published in the past month. We have also updated the bibliography replacing abstract presentations with peer-reviewed articles when possible.

Thank you again for publishing our manuscript in the World Journal of Gastroenterology.

Yours sincerely,

Dr. Elda Righi
