COMMENTS TO AUTHORS

This is a nice review suitable for publication. However the authors could propose potential audit themes that now lack in the Nephrology Field

COMMENTS TO AUTHORS

No major point should be revised in this paper. Minor points 1. page 10, line 3: "Chrocane Study Group" should be changed to "Cochrane Study Group" 2. What problems other than vascular access, hypertension management or anemia in nephrology should be involved in clinical audit projects in future?
