

This manuscript deals with various aspects of cancer (genome characterization tools and epigenomics), which are new insights that help to understand the molecular mechanisms of cancer development. It is concise and interesting, it merits to be accepted.

Response to Reviewer's comments:

(1) I found no "Author contribution" section. Please provide the author contributions;

Ans: Authors contribution section has been added.

(2) I found the authors did not add the PMID and DOI in the reference list. Please provide the PubMed numbers and DOI citation numbers to the reference list and list all authors of the references. Please revise throughout;

Ans: References have been updated according to reviewer's instructions.

(3) I found no "abstract" and "core tip" sections. Please write these two parts; and

Ans: Abstract and core tip has been added.

(4) I have changed the manuscript type "review" to "minireview".

Ans: Thank you very much.
