COMMENTS TO AUTHORS

This article provides a review of pancreatic injury and discusses the mechanisms of injury, clinical and laboratory diagnosis, classification, imaging techniques, management, outcome and complications of blunt pancreatic trauma. This is a good review in which the author analyzes the several aspects on the pancreatic injury.

COMMENTS TO AUTHORS

This manuscript reviewed the pancreatic injury and discusses the mechanism of injury, clinical and laboratory diagnosis. The content flow of this work is smooth. It is well-organized, well-written and thorough. I believe this work can benefit the readers of WJR. There are only some typos in the manuscript, so a minor revision is required focusing on the edition.
