Complementary roles of interventional radiology and therapeutic endoscopy in gastroenterology

David M Ray, ⁴¹Indu Srinivasan, Shou-Jiang Tang, Andreas S Vilmann, Peter Vilmann, Timothy C McCowan, Akash M Patel

Abstract

Acute upper and lower gastrointestinal bleeding, enteral feeding, cecostomy tubes and luminal strictures are some of the common reasons for gastroenterology service. While surgery was initially considered the main treatment modality, the advent of both therapeutic endoscopy and interventional radiology have resulted in the paradigm shift
