Re: Molecular Therapeutics in Pancreas Cancer  
ESPS Manuscript Number: 21716

Dear Editor,

We greatly appreciate your suggestions to improve our manuscript. In addition to including an audio file for the 'Core Tip' we have made the following corrections:

1. The institutional affiliation in the title page has been updated.
2. The location for Table 3 has been marked in the text.

These changes appear highlighted in the revised manuscript and we hope that the edited manuscript is suitable for final submission.

Thank you,

Yours sincerely,

*Vignesh Narayanan*
