Gastrointestinal cancer highlights

### Abstract

Together gastrointestinal cancers occur in a total of eight different locations, each of them with different standard of care. This article is not an exhaustive review of what has been published in 2020. We have concentrated on the thirteen phase III randomized studies that are practice-changing. All these studies are oral presentations which have been given in one of the four major oncology congresses, namely American Society of Clinical Oncology (ASCO), ASCO gastro-intestinal (GI), European Society of Medical Oncology (ESMO) and ESMO-GI. We want here to give a concise view of these major
