(PDF) Lung Ultrasound Score Predicts the Extravascular ...
https://www.researchgate.net/publication/340791282...
Lung Ultrasound Score Predicts the Extravascular Lung Water Content in Low-Birth-Weight Neonates with Patent Ductus Arteriosus April 2020 Medical science monitor: international medical journal of ...

(PDF) Lung ultrasound score as early predictor of ...
https://www.researchgate.net/publication/333692259...
Lung Ultrasound Score Predicts the Extravascular Lung Water Content in Low-Birth-Weight Neonates with Patent Ductus Arteriosus ... assessment of pulmonary edema in low-weight neonates with PDA ...

Lung Ultrasound Score Predicts Surfactant Need in ...
https://www.researchgate.net/publication/327022080...
Lung ultrasound (LU) is proving to be very useful in Neonatal Intensive Care Units (NICU): it diagnoses respiratory diseases with a higher accuracy than X-ray 1-3, it predicts the need for ...

Neonatal lung ultrasound exam guidelines | Request PDF
https://www.researchgate.net/publication/321112819...
Our results show the ultrasonographic lung pattern in three newborns with SARS-CoV-2 infection during this 2019-2020 pandemic. We present three neonates with very different [3, [24][25][26]. We ...

Shock in newborn infants has unique etiopathologic origins that require careful assessment to direct specific interventions. Early diagnosis is key to successful management. Unlike adults and pediatric patients, shock in newborn infants is often recognized in the uncompensated phase by the presence of hypotension, which may be too late. The routine methods of evaluation used in the adult and ...
