SPECIFIC COMMENTS TO AUTHORS

The research question is quite interesting and the study is so extensive that it deserves to be divided into multiple smaller manuscripts. The manuscript needs to comply with the standard organization for original research articles; so the study material and methods

section needs to come just after the study introduction and objectives. The results section would better to be based-on and arranged in accordance with the methods section without redundancy or repetitions referring to tables and illustration in-order to keep reader more attracted and aiming for simplification and readability.
