Hepatitis C virus prevalence and genotype distribution in Pakistan: Comprehensive review of recent data

Umer M *et al.* HCV prevalence and genotypes in Pakistan

Muhammad Umer, Mazhar Iqbal

1
Abstract

Hepatitis C virus (HCV) is endemic in Pakistan and its burden is expected to increase in coming decades owing mainly to widespread use of unsafe medical procedures. The prevalence of HCV in Pakistan has previously been reviewed. However, the literature search conducted here revealed that at least 86 relevant studies have been produced since the publication of these systematic reviews. A revised updated analysis was
