

Issues raised: (1) The authors did not **provide original pictures**. Please provide the original figure documents. Please prepare and **arrange the figures using PowerPoint** to ensure that all graphs or arrows **or text portions can be reprocessed by the editor**.

- Thank you for bringing this up – I am uploading the ppt version of the original figures with editable arrows/ asterisks that can be deleted.

And please provide the **Table 1 as a three wire table but not a figure**.

- I'm not quite sure which Table you are referring to? The manuscript has 3 figures but no tables, and tables are not mentioned in the manuscript.

(2) Please provide the **PubMed numbers and DOI citation numbers** to the reference list and **list all authors of the references**. Please revise throughout.

- The references have been modified to include PubMed numbers and DOI citations

(3) Please re-write the “Case Presentation” section, and add “FINAL DIAGNOSIS”, “TREATMENT”, and “OUTCOME AND FOLLOW-UP” section to the main text, according to the Guidelines and Requirements for Manuscript Revision.

- The manuscript has been modified to add those sections. Thank you.
