SPECIFIC COMMENTS TO AUTHORS

Dear Author(s), Please make the following changes to your paper: 1/ The title of the article should be revised to better reflect the purpose of the current investigation. 2/ When they first appeared in the paper, some abbreviations used in the study abstract were not clarified. I hope that this flaw be fixed, whether at the level of the study abstract or elsewhere in the paper. 3/ The study's introduction must be written in three paragraphs and include the following information: *The first paragraph discusses the significance of the current study. *The second paragraph describes the knowledge gap that the current study is attempting to fill. *The third paragraph describes the present research problem and how it will be solved within the context of the current study's purpose. 4/ This sentence appears in the paper's statistical analysis section: The study design and protocol were approved by the Mennonite Christian Hospital Ethics Committee (No. 16-05-008) in Hualien, Taiwan, which was performed in accordance with the Helsinki Declaration, as revised in 2013. All participants were informed the nature of the study and gave written informed consent, should be removed from this section and added to the study population section. 5/ Instead of opening each

paragraph with the term Table, as shown in the paper's results section, rephrasing of the texts in the entire results section is required. 6/ What are the current study's strengths? What are the current study's possible future directions? Please respond to these two questions in the discussion section's final paragraph. 7/ The conclusion section should be modified to clarify whether or not the current study's aim was met, i.e. whether or not the current research problem was solved. 8/ Some references should be changed because they are out of date. Because there are 36 references, I recommend using just references from 2023 and at least five years before that, while removing any redundant old references that do not assist the current study topic. //Good Luck//
