

This is a very nicely written review of COVID infections in children, with emphasize on gastrointestinal infections. I find this very educational for physicians which at this time are mostly concerned about the respiratory side of COVID disease.

*Thanks for your comment*

Dear Respected Editor

Good day

Reediting was done using AJE. A certificate was reattached.

The issues raised:

5 Issues raised:

- (1) We provided the original picture as indicated. We attached PowerPoint file to ensure that all graphs or arrows or text portions can be reprocessed by the editor;
- (2) Correction of the column to minireviews was done.
- (3) As the picture is our invention, we do not need to obtain permission for the use of picture.

We do thank you for your support during publication of this manuscript.

Many thanks

Professor Mohammed Al-Biltagi
