**Species differences in the regulation of renal proximal tubule transport**

George Seki, Motonobu Nakamura, Masashi Suzuki, Nobuhiko Satoh, Shoko

Horita

### Abstract

Renal proximal tubules (PTs) play important roles in the regulation of acid/base, plasma volume and blood pressure. Recent studies suggest that there are substantial species differences in the regulation of PT transport. For example, thiazolidinediones (TZs) are widely used for the treatment of type 2
