Effect of agitation speed on the morphology of *Aspergillus niger* HFD5A-1 hyphae and its pectinase production in submerged fermentation

Darah Ibrahim, Haritharan Weloosamy, Lim Sheh-Hong

**Abstract**

8

AIM: To investigate the impact of agitation speed on pectinase production and morphological changing of *Aspergillus niger* HFD5A-1 in submerged fermentation

METHODS: *Aspergillus niger* HFM5A-1 was isolated from a rotted pomelo. The
